NATHAN KAMINSKI, JR.
CHIEF OF STAFF

MEMORANDUM

TO: State Agency Heads

FROM: Richard Eckstrom
Comptroller General

RE: Travel Report – Fiscal Year 2003-2004

DATE: January 25, 2005

The enclosed Travel Report for Fiscal Year 2003-2004 is provided for your information. My staff has compiled this report from data recorded in the Statewide Accounting and Reporting System (STARS). Agencies that receive state appropriations but have the authority to issue their own checks and maintain their own accounting systems (i.e., “lump sum” agencies) are not included in this report. However, we are making necessary provisions for them to be included in future years.

The report is intended to provide a management tool to assist agency heads in ensuring that the state's financial resources are being used efficiently. Please contact me if you have any questions.

/jh

PREFACE

The Comptroller General's Office compiled this report on travel expenditures for the fiscal year ended June 30, 2004, to the extent possible, from data recorded in the Statewide Accounting and Reporting System. Information on agencies that receive state appropriations but have the authority to issue their own checks and maintain their own accounting systems such as the state's technical colleges and universities, the South Carolina Lottery Commission, the Jobs Economic Development Authority, and the South Carolina State Ports Authority are not included in this report. Also, employee job titles are available to us only for those positions listed through the Budget and Control Board's Office of Human Resources (OHR). We have begun taking the steps necessary to include information on all agencies and job titles for all employees in future reports.

The report includes travel related expenditures paid from state, federal, and other sources by all agencies that received appropriations in the 2003-2004 Appropriation Act. Expenditures for state-owned leased cars and employee moving expenses are not included. The amounts shown in the report are net of any reimbursements received from non-state parties for travel costs incurred. The report is divided into two sections.

Section One contains a summary of in-state, out-of-state, and non-state employee travel expenditures by agency. Included in the category for out-of-state travel is employee travel outside the borders of the United States. The category for non-state employee travel includes, for example, agency expenditures by non-state employees for transportation, mileage, lodging, meals, and other legal charges necessary in the performance of their services while under contract with the State. This category also includes registration fees and travel paid to volunteer workers. Agencies are listed in Section One in descending order beginning with the agency that spent the most on travel.

Section Two ranks each agency by the total amount spent only on in-state and out-of-state travel. For each agency, the top twenty-five employee travelers are listed in descending order according to the amount expended. For agencies with more than twenty-five employee travelers, another category is included to show the total travel expenditures of employees not listed in the top twenty-five. In instances where more than one employee incurred the same amount of travel expenditures as number twenty-five, each employee is listed. Therefore, it is possible that some agencies will have more than twenty-five employees listed. Also, persons employed by one agency may incur travel expenditures that are appropriately charged to another agency. In these instances, the employee is listed under the agency that paid for the travel. Expenditures for non-state employee travel are not included in this section. Accordingly, an agency's rank in this section may differ from the rank in Section One.
